## STEERING DAMPERS

### CSC STEERING DAMPERS

- Linear-damping steering damper with 24 clicks to make a fine-tuning possible
- Gives the rider a comfort in riding and the assurance of not getting knocked off by the quick steering movements of the bike
- Fully adjustable; damping can be adjusted in 22 positions

- Fully reconstructable with spare parts availability
- Twin-tube clamp ensures that the clamping force of the tube-clamp does not obstruct the piston
- Low-friction design due to 8 mm piston rod with special surface treatment
- One-piece piston rod

- Triple-function seals
- Dust scraper and double oil seal, ensuring that dust cannot enter and oil cannot exit
- Nitrogen-pressurized heat expansion reservoir
- Gas pressure prevents the formation of air bubbles

### RSC STEERING DAMPERS

- Superior to other steering dampers
- Behaves like a linear steering damper when driving normally and have all the functionalities of the CSC steering damper
- RSC dampers will react in a direct way with a lot of extra progressive damping
- Damping can be adjusted in 22 positions

- Fully reconstructable with spare parts availability
- Twin-tube clamp ensures that the clamping force of the tube-clamp does not obstruct the piston
- Low-friction design due to 8 mm piston rod with special surface treatment

- One-piece piston rod
- Triple-function seals
- Dust scraper and double oil seal, ensuring that dust cannot enter and oil cannot exit
- Nitrogen-pressurized heat expansion reservoir
