## UNIVERSAL CLAMP-ON AIR FILTERS

- K&N universal air filters come in four styles – round straight, round tapered, oval straight and oval tapered
- All round straight types, oval straight types and oval tapered types have rubber end caps (unless noted differently)
- All round tapered types have chrome end caps (unless noted differently)
- All clamp directly to the carburetor throat, replacing the stock airbox and filter element
- Pleated design increases surface area airflow
- Match the outer diameter (OD) of your carb throat with the inner diameter (ID) of the filter (given in inches and millimeters)

F = Inside Diameter      L = Filter Length      FA = Flange Angle      MA = Filter Oval Length  
D = Filter Diameter      FL = Flange Length      SA = Filter Oval Width
