Kettingkitconfigurator

- 1- Vul de referentie van de kettingkit in (standaard overbrenging van het voertuig)
- 2- Kies een gepersonaliseerde overbrenging (variabel aantal tanden voor- en achterandwiel)
- 3- De lengte van de corresponderende ketting wordt automatisch berekend.
- 4- Profiteer van een enkel tarief onafhankelijk van de overbrengingsverhouding.

Kettingkitconfigurator

- 1- Vul de referentie van de kettingkit in (standaard overbrenging van het voertuig)
- 2- Kies een gepersonaliseerde overbrenging (variabel aantal tanden voor- en achterandwiel)
- 3- De lengte van de corresponderende ketting wordt automatisch berekend.
- 4- Profiteer van een enkel tarief onafhankelijk van de overbrengingsverhouding.
