

## FORK SPRINGS

- Accuracy and performance
- Accurate rates to within 2%
- High stiffness-to-mass ratio, shot-peened, heat-treated and preset chrome silicon steel
- Choose from varying spring rates to suit your riding style and comfort

### FRONT LOWERING KITS

- Three options for lowering the front end 38 mm (1 1/2") and giving your bike a distinctive slammed look
- Additional benefits for vertically challenged riders
- Lower seat height and lower center of gravity make the bike easier to control
- Use of Race Tech Gold Valve Emulators™ recommended with lowering kit PART #0416-0041

**NOTE:** Lowering your bike will reduce its cornering angles and the stability of the bike while on its side stand
