

Kettingen

Overal ter wereld dé referentie, gebruikt door topteam!

De kettingkits van DID® zijn ware hoogstandjes wat betreft prestaties en betrouwbaarheid. Ze verzekeren een uitstekende overbrenging van het motorvermogen naar het achterwiel dankzij beperking van de wrijving. Na jarenlange inspanningen in R&D is DID® erin geslaagd de nummer 1 OEM-fabrikant te worden. Samen met de tandwielen van PBR® is deze kettingkit de meest performante en duurzame van de markt.
